> *As a kid, I loved playing with lego and thus early on, discovered how satisfying it is to be able to build something from scratch. But I am not very good at drawing and painting, and even though I have always wanted to write a book I think that's just a nice dream. Coding, on the other hand, has given me the opportunity to build things that I never thought I would be able to make. I would love to work in a company where I can continue to learn, grow and create.*

EDUCATION

WEB DEVELOPMENT IMMERSIVE | GENERAL ASSEMBLY | OCT 2017 - JAN 2018

BACHELOR OF ARTS | UNIVERSITY OF SYDNEY | 2011 - 2013
Majors: Psychology, Government and International Relations

EXPERIENCE

STUDENT | GENERAL ASSEMBLY | OCT 2017 - JAN 2018

During the 3 month bootcamp I worked on projects requiring both front-end and back-end skills. Projects included a social media platform for English Premier League fans and a travel planning web app called 'Trippy'. As part of a team, I also worked on creating a web app called 'Grumble', designed to help users decide where to eat.

Skills include: **HTML5, CSS3, JavaScript, JQuery, Bootstrap, Ruby, Rails, PostgreSQL, Sinatra, AJAX, ReactJS, NodeJS, Three.js, Underscore.js** & **Git**.
I also have a high attention to detail, which helped during the many class code alongs.

READING EGGS CUSTOMER SERVICE | BLAKE EDUCATION | MAY 2016 - SEP 2017

As well as my role in customer service, I also volunteered to do some product testing for the dev team on our new educational app. This was invaluable as it helped me discover my passion for and interest in programming.

KITCHENHAND | PEPPERMILL CATERING | JAN 2011 - AUG 2017

As a result of working in a fast paced and high stress environment, I have a lot more experience and can work better under high pressure situations. I have learnt how to multitask, think on my feet and remain calm.
